

Draft *Indian Standard*
PEANUTS – SPECIFICATION
(Adoption of ISO 6478:1990)
ICS No. 67.080.10

**Not to be reproduced without the permission of BIS or used as standard.
Last date for comments: 15 March 2010**

Processed Fruits and Vegetable Products Sectional Committee, FAD10

NATIONAL FOREWORD

(adoption clause will be added later)

The text of ISO standard has been approved as suitable for publication as an Indian Standard without deviations. Certain conventions are, however, not identical to those used in Indian Standards. Attention is particularly drawn to the following:

- a) Wherever the words ‘International Standard’ appear referring to this standard, they should be read as ‘Indian Standard’.
- b) Comma(,) has been used as a decimal marker while in Indian Standards, the current practice is to use a point (.) as the decimal marker.

In this adopted standard, reference appears to certain International Standards for which Indian Standards also exist. The corresponding Indian Standards which are to be substituted in their places are listed below along with their degree of equivalence for the editions indicated:

<i>International Standard</i>	<i>Corresponding Standard</i>	<i>Indian Standard</i>	<i>Degree of Equivalence</i>
ISO 1026:1982, Fruit and vegetable products – Determination of dry matter content by drying under reduced pressure and of water content by azeotropic distillation.	IS 5781:1993 vegetable products - Determination of dry matter content under reduced pressure and of water content by azeotropic distillation (first revision)	Fruit and vegetable products -	Identical

In reporting the result of a test or analysis made in accordance with this standard, if the final value, observed or calculated, is to be rounded off, it shall be done in accordance with IS 2:1960 ‘Rules for rounding off numerical values (*revised*)’.
