Information Systems Security and Biometrics Sectional Committee, LITD 17

**NATIONAL FOREWORD**

(Formal clauses to be added later)

This Draft Indian Standard which is identical with ISO/IEC 27007:2017 ‘Information technology – Security techniques – Guidelines for information security management systems auditing’ issued by International Organization for Standardization (ISO) and International Electrotechnical Commission (IEC) will be adopted by the Bureau of Indian Standards on the recommendations of the Information Systems Security and Biometrics Sectional Committee, and approval of the Electronics and Information Technology Division Council.

The text of ISO/IEC Standard may be approved as suitable for publication as an Indian Standard without deviations. Certain conventions are, however, not identical to those used in Indian Standards. Attention is particularly drawn to the following:

a) Wherever the words ‘International Standard’ appear referring to this standard, they should be read as ‘Indian Standard’.

b) Comma (,) has been used as a decimal marker while in Indian Standards, the current practice is to use a point (.) as the decimal marker.

In this adopted standard, reference appears to certain International Standards for which Indian Standard also exist. For undated references, the latest edition of the referenced document applies, including any corrigenda and amendment. The corresponding Indian Standard which is to be substituted in its respective place is listed below along with its degree of equivalence for the edition indicated:

| <i>International Standard</i>  | <i>Corresponding Indian Standard</i>  | <i>Degree of Equivalence</i> |
|--|---|------------------------------|
| ISO/IEC 27000:2016<br>Information technology —<br>Security techniques —<br>Information security<br>management systems —<br>Overview and vocabulary | IS/ISO/IEC 27000:2016<br>Information technology — Security techniques<br>— Information security management systems —<br>Overview and vocabulary (Under Print) | Identical                    |
| ISO/IEC 27001:2013<br>Information technology —<br>Security techniques —<br>Information security<br>management systems —<br>Requirements            | IS/ISO/IEC 27001:2013 Information technology<br>— Security techniques — Information security<br>management systems — Requirements                             | Identical                    |
| ISO 19011:2011<br>Guidelines for auditing<br>management systems  | IS/ISO 19011:2011 Guidelines for auditing<br>management systems   | Identical                    |

For the purpose of deciding whether a particular requirement of this standard is complied with, the final value, observed or calculated, expressing the result of a test or analysis, shall be rounded off in accordance with IS 2 : 1960 ‘Rules for rounding off numerical values (revised)’. The number of significant places retained in the rounded off value should be the same as that of the specified value in this standard.

---

Scope of ISO/IEC 27007:2017 is as follows:

“This document provides guidance on managing an information security management system (ISMS) audit programme, on conducting audits, and on the competence of ISMS auditors, in addition to the guidance contained in ISO 19011:2011.

This document is applicable to those needing to understand or conduct internal or external audits of an ISMS or to manage an ISMS audit programme.”

Note: The Technical content of this document has not been enclosed as these are identical with the corresponding ISO/IEC Standard. For details please refer ISO/IEC 27000:2017 or kindly contact.
