## PREFACE

A programme of work is prepared every year for each Division of Bureau of Indian Standards to indicate the latest position of published Indian Standards and draft standards at different stages of processing. This programme of work for Management and Systems Division Council (MSDC) has been prepared Sectional Committee-wise as on 1 April 2014 and arranged in the sequential order of the Committee Number.

The scope of MSDC is as under:

‘Standardization in the field of quality management systems, statistical quality control, management and productivity, documentation and information, various services including banking and financial services, social responsibility, education, tourism and related services, psychological assessment, brand valuation, rating services, product recall, consumer product safety, sustainability in event management, competence standards, and conformity assessment.’

Presently, there are ten Sectional Committees under MSDC. The overall coordination of the task of MSDC is with the Management and Systems Department (MSD). Out of the ten committees, four deal with service sector, namely, Banking and Financial Services; Education; Social responsibility and Tourism.

The ten committees of MSD have been numbered from MSD 2, MSD 3, MSD 4, MSD 5, MSD 6, MSD 7, MSD 9, MSD 10, MSD 12 and MSD 13. Three Sectional Committees which were earlier being handled by MSD were transferred to other Division Councils. MSD 1 (Basic Standards Sectional Committee) had been transferred in 1997 to the then Light Mechanical Engineering Department (LMD) and is now being handled by Production & General Engineering Department (PGD). MSD 8 (Hospital and Medical Care Sectional Committee) had been transferred in 2006 to Medical Equipment and Hospital Planning Department (MHD). MSD 11 (Management Systems for Eco-friendly Mining Operations Sectional Committee) has been transferred in 2011 to Mechanical Engineering Department (MED).

Two Sectional Committees of MSD have been bifurcated in 2013. MSD 4 (Management and Productivity Sectional Committee) has been split into two separate Committees, namely, MSD 4 (Management and Productivity Sectional Committee) and MSD 12 (Resource Management Sectional Committee). MSD 5 (Documentation and Information Sectional Committee), has also been split into two separate Sectional Committees, namely, MSD 5 (Documentation and Information Sectional Committee) and MSD 6 (Publication and Graphic Technology Sectional Committee). One new Committee MSD 13 (Tourism and related services Sectional Committee), which was earlier being handled by Standards Promotion Department has now been transferred under the scope of MSDC and is being handled by MSD.

In order to ensure that all the related publications appear at one place to the extent possible, the standards in this programme of work are listed under their respective Sectional Committees. So far, 220 standards including 3 special publications have been published with another 61 draft standards being under various stages of processing.

In the programme of work an asterisk mark (\*) given before a printed standard indicates that the standard is under revision and its relevant document is available at different stages of processing; whereas, double asterisk mark (\*\*) indicates standard identified for revision for which document is yet to be prepared. Wherever ‘IS/ISO’ followed by the designation is given, it implies that the Indian Standard is the total adoption of International Standard under dual numbering scheme and that the designation of the International Standard has been given to the Indian Standard, for example IS/ISO 9001:2008 indicates that Indian Standard is total adoption of ISO 9001:2008. Below the designation of a published standard, wherever ‘/ ISO.....’ standard number is given, it also implies that the Indian Standard is identical to the ISO standard.

It is hoped that this publication will provide the community of Standards users a convenient tool for obtaining the latest information about new and upcoming standards in the field of management and quality systems.
