PROGRAMME OF WORK
(AS ON 01 APRIL 2014)

Textiles Department
(TXD)

BUREAU OF INDIAN STANDARDS
MANAK BHAWAN, 9 BAHADUR SHSH ZAFAR MARG
NEW DELHI - 110002

PREFACE

A programme of work is prepared every year for each Division of the Bureau to indicate the latest position of published Indian standards and draft standards at different stages of processing. This programme of work for Textile Division Council (TXDC) has been prepared Sectional Committee-wise as on 01 April 2014 and arranged in the sequential order of the Committee Number.

The scope of TXDC is as under:

Standardization in the field of textiles covering natural and man-made fibres and their products, dyestuffs, textile speciality chemicals, textile machinery, technical textiles and textile protective clothing

In addition, the Textiles Department established in 1947 is engaged in formulation of Indian standards through a network of 24 Sectional Committees. Currently 1165 published Indian Standards in the field of textiles are in use.

This programme of work also provides information on withdrawn and superseded Indian Standards, number of licenses under the Bureau of Indian Standards Certification Marks Scheme against standards relating to textiles and Indian standards translated/published in Hindi.

In the programme of work an asterisk mark (*) given before the standard indicates that the standard is under revision and its relevant document is under processing; whereas, double asterisk mark (**) indicates standard is identified for revision for which document is yet to be prepared. Below the designation of a published standard, wherever ' /ISO ... ' Standard number is given, it implies that the Indian Standard is the total adoption of ISO/IEC standard under dual numbering scheme (The designations such as IS/ISO 9000:2000 indicates dual numbered standards). Below the designation of a published standard, wherever 'I' is given, it implies that the Indian standard is technically equivalent to corresponding ISO standard.

It is hoped that this publication will provide the user community a convenient tool for obtaining the latest information about new and upcoming standards in the field of textiles.
